

FIRST ANNOUNCEMENT & CALL FOR PAPERS

2nd VIE, Sep 26 2013 in Kazan, Russia
at

International Conference **ICL**
Interactive Collaborative Learning

Special Session on **Virtual Internationalization of Education (VIE)**

This special session will take place during ICL 2013 in Kazan, Russia (25 - 27 September 2013) as a special programme item.

It is well known that internationalization will become increasingly important for various reasons in the tertiary education. VIE 2013 provides an interdisciplinary forum for international scientists to discuss various aspects of internationalization of education supported by electronic tools.

The main aims of this special track are:

- (a) to investigate strategies for introducing virtual internationalization of education, and
- (b) to investigate the optimal use and exploitation of ICT.

Topics of Interest

Pedagogical aspects

- Continuous Education
- Flexible Learning
- Collaborative Learning
- Tutors' collaboration
- Joint courses and educational programmes

Technological Aspects

- Tools and technologies for supporting e-internationalization process
- Computer Supported Collaborative Learning
- Social Networking tools for supporting Virtual Internationalization of Education
- Game Based Learning
