Corporate E-Learning

International Conference
Hasselt/Belgium
■ Interactive Computer Aided Learning **ICL**

13th International Conference on Interactive Computer aided Learning

Academic and Corporate E-Learning in a Global Context

www.icl-conference.org

September 15 – 17, 2010, Hasselt, Belgium

The interdisciplinary ICL conference aims to focus on the exchange of relevant trends and research results as well as the presentation of practical experiences in e-learning.

Learning has become an increasingly important subject of all organisations. It is a main task to develop and to maintain the individual and organizational skills and knowledge to create a sustainable competitive advantage, achieve superior performance, increase efficiency, respond to changing environments, and improve business results.

How to provide the most effective learning solutions and facilities for workplace learning? It's time to make the change and to benefit from the revolution of ICT to enhance the quality of learning and provide better training by the usage of E-learning, where learning materials and relevant knowledge can be delivered just in time in the workplace by using internet technology

A special corporate e-learning track will be organized in the frame of the ICL conference by University Hasselt in Belgium in cooperation with: BE-ODL, IBM, i-KNOW, KBC, VDAB, CVO Antwerp South, OU (nl)

Topics of Interest

- Business experiences in and impact of the implementation of e-learning
- E-Learning readiness: measuring it and action plan
- Immersive learning models thanks to technological advancements
- Semantic tooling delivering personalised content and integrating learning in the workplace
- Computer-Assisted Language Learning
- Personal Learning Environments
- Information retrieval techniques for e-Learning

Types of Contributions

- e-learing practice presentation
- short papers about e-learning strategy, policy
- interactive demonstration of systems
- round table discussions
- run a workshop
- exhibit at ICL
