

Guest Editorial

From the EDUCON2011 Conference Co-Chairs

You find in this issue selected papers from the “2nd IEEE EDUCON Conference, the Annual Global Engineering Education Conference of the IEEE Education Society.

We have got near 400 paper submissions for this conference. The review process was very competitive and due to time and space limitations, we could only choose a limited number of about 200 papers from authors from 59 countries to appear on the program.

This shows that we had an event of high scientific level.

Our thank goes to the keynote speakers, who followed our invitation:

- **Rob Reilly**, President of the IEEE Education Society;
- **Judson Harward**, Associate Director of the MIT Center for Educational Computing Initiatives, United States;
- **Arthur Edwards** from Colima University, Mexico;
- **Marianne Azer** from National Telecommunication Institute, Egypt; and (last but not least)
- **Denis Gillet** from EPFL Lausanne, Switzerland.

We would like to thank everyone who was involved in the local conference organization, especially the colleagues from the Princess Sumaya University of Technology Amman.

A. Y. Al-Zoubi, Senior Member IEEE, Princess Sumaya University for Technology, Amman, Jordan

Michael E. Auer, Senior Member IEEE, President and CEO IAOE, Carinthia University of Applied Sciences, Villach, Austria

Edmundo Tovar, Senior Member IEEE, Universidad Politécnica de Madrid, Spain
