Location: Madrid, Espana
Venue: Hotel Santo Domingo, Madrid
Start: April 10, 2008, 09:00 hrs
End: April 11, 2008, 17:00 hrs

Introduction

This workshop is organised by the EU 6th Framework Integrated Project (Technology Enhanced Learning) **TENCompetence**. The objective of the workshop is to identify and analyse current research and technologies in the fields that provide design guidelines and evidence for powerful interfaces, interaction and navigation support, and tailor-made competence development opportunities for individual learners, teams and organisations.

Theme

The main theme of this workshop is to provide an overview on current research on support and empowerment of learners in relation to their lifelong competence development.

Publication of Proceedings

All papers accepted for the workshop will be published in the official ISBN workshop proceedings and will be distributed to the participants after the workshop via Ten Competence's dSpace. Selected papers will be invited to submit a full paper (4000 words) for a special issue of the **International Journal of Emerging Technologies in Learning** devoted to the outcomes of the workshop.
