First International Conference on Interactive Mobile and Computer Aided Learning – IMCL2006

Princess Sumaya University for Technology
Amman-Jordan, 19-21 April 2006

Call for Papers

Scope of the conference

The future of Mobile Technology in Education

The conference aims to promote the development of Mobile Learning in the Middle East, provide a forum for education and knowledge transfer and encourage the study and implementation of mobile applications in teaching and learning. The conference will also present an opportunity for educators to develop new skills and to stimulate critical debate on theories, approaches, principles and applications of m-learning, hence facilitate dialogue, sharing and networking between diverse cultures with regard to the optimal use of emerging technologies.

The conference will provide participants with the newest state of the art on portable devices and their role in university education and potential benefits for learning purposes. Examples of the implementation by laptops, palmtops, mobile phones, PDA, smartphones, WAPs, GPS and a navigational system, WWW-access via Bluetooth, WLAN or GPRS will be presented, accompanied by experimentations to demonstrate their coherence and feasibility.

This workshop will be organized by:

Princess Sumaya University for Technology, Jordan
Carinthia Tech Institute, Austria
Royal Institute of Technology, Sweden
