

Acknowledging iJOE 2016 Reviewers

<https://doi.org/10.3991/ijoe.v13i04.7082>

We like to extend much gratitude to the individuals who served as manuscript reviewers for the *International Journal of Online Engineering* (iJOE) during the period of 2016. Our reviewers generously volunteer their time, and although intangible benefits may be gleaned from serving in the capacity of a reviewer, reviewers are also faced with increased demands on their time to complete professional activities. We are grateful for their time, effort and dedication.
