Call for Papers

International Conference on

Remote Engineering and Virtual Instrumentation

REV2009 [www.rev2009.org]

June 22-25, University of Bridgeport, USA

REV2009 is the sixth of a series of annual events addressing the area of remote engineering and virtual instrumentation. Previous editions of REV were organised in the form of an international symposium, while in 2009 REV is organized as the annual conference of the International Association of Online Engineering (www.online-engineering.org). The general objective of this conference is to enable participants to discuss and exchange ideas related to fundamentals, applications and research experiences in the field of online engineering, both in industry and academia. REV2009 combines an exciting technical program with opportunities to network with other researchers during the conference.

Keynote talks

- **Tarek Sobh**, University of Bridgeport
- Additional keynote speeches to be scheduled
