

Acknowledging iJOE 2017 Reviewers

<https://doi.org/10.3991/ijoe.v14i02.8407>

We like to extend much gratitude to the individuals who served as manuscript reviewers for the *International Journal of Online Engineering* (iJOE) Volume 13 (2017). Our reviewers generously volunteer their time, and although intangible benefits may be gleaned from serving in the capacity of a reviewer, reviewers are also faced with increased demands on their time to complete professional activities. We are grateful for their time, effort and dedication.
